People like it when you are poor

They like it when you are suffering

They like it when you are crying

They like it when you are in the same circle with them

But, once you activated your dream

Once you start making progress

Them go turn to your enemies

Dem go dey vex

Dem go dey gossip

Dem go dey backbite

I say:

Dem go dey vex

Dem go dey gossip

Dem go dey backbite

Because your glory has been activated

Oluwa lope mi

To ran mi ni ishe

Oluwa lope mi

To fun mi ebun
